**D60** (Throw ratio 1.84-2.2:1)

Dealer	M.S.R.P
\$3,500.00	\$4,999.00

### SIM2 Solutions for Anamorphic (2.35:1/2.40:1) Applications - PROJECTOR NOT INCLUDED

Based on the same principle used in commercial movie theater projection, these custom-built systems allow SIM2's projectors to display 'CinemaScope' movies (2.35:1/2.40:1 aspect ratio) at their correct aspect ratio, without the black bars typical of "letterbox" systems. A 2.35:1/2.40:1 aspect ratio screen is needed to complete the system.

#### Flex – Anamorphic optics for Domino D80E

Anamorphic high quality Lens • Custom-built platform integrates motorized lens sled and projector for ceiling installation (HTPM bracket) • 1 Panamorph motorized sled • 1 Panamorph Anamorphic Lens

**Motorized Home Cinema DOMINO D80E Flex System**

Dealer	M.S.R.P
\$4,225.00	\$6,495.00

#### FLEX – Anamorphic optics for Domino D60

### Ethereal 15 HDMI

Elite Series - HDMI Cable • HDMI LLC. 1.3 & Simplay • Silver plating • Pro-Market Poly Bag

Dealer	M.S.R.P
\$140.83	\$351.99

### Notes

**Throw Distance:** It is recommended not to use the minimum or maximum projector throw ratios stated in the product brochures for your installation. Accurate positioning of the projector is better achieved by avoiding these two extremes.

**Home Cinema FLEX system:** includes a ceiling bracket and a connecting plate between sled and projector.

Advanced Replacement on accessories such as lenses, brackets and lamps is not available.

Prices, terms, policies, conditions, and technical specifications are subject to change without notice.
